heppg@fishers.in.us**CRIME WATCH INFORMATION**

February 4, 2008

We are currently investigating several reports of theft from vehicles. While the thefts have occurred all over the Town, the highest concentration of recent reports seems to be occurring between 96th Street and 106th Street in both business and residential neighborhoods. Please remind everyone to report suspicious activity **and** if they are the victim of a crime.

Our crime watch program is designed to increase communication between the police department and the community. To date, I have 34 "theft from vehicle" reports filed since the first of the year. I received information from Covington Estates and Berkley Ridge about suspicious activity, damage to vehicles and/or thefts from cars parked in driveways and in garages. One email indicated that the suspects are using garage door openers left in cars parked in the driveway.

The following is an email quote from crime watch:

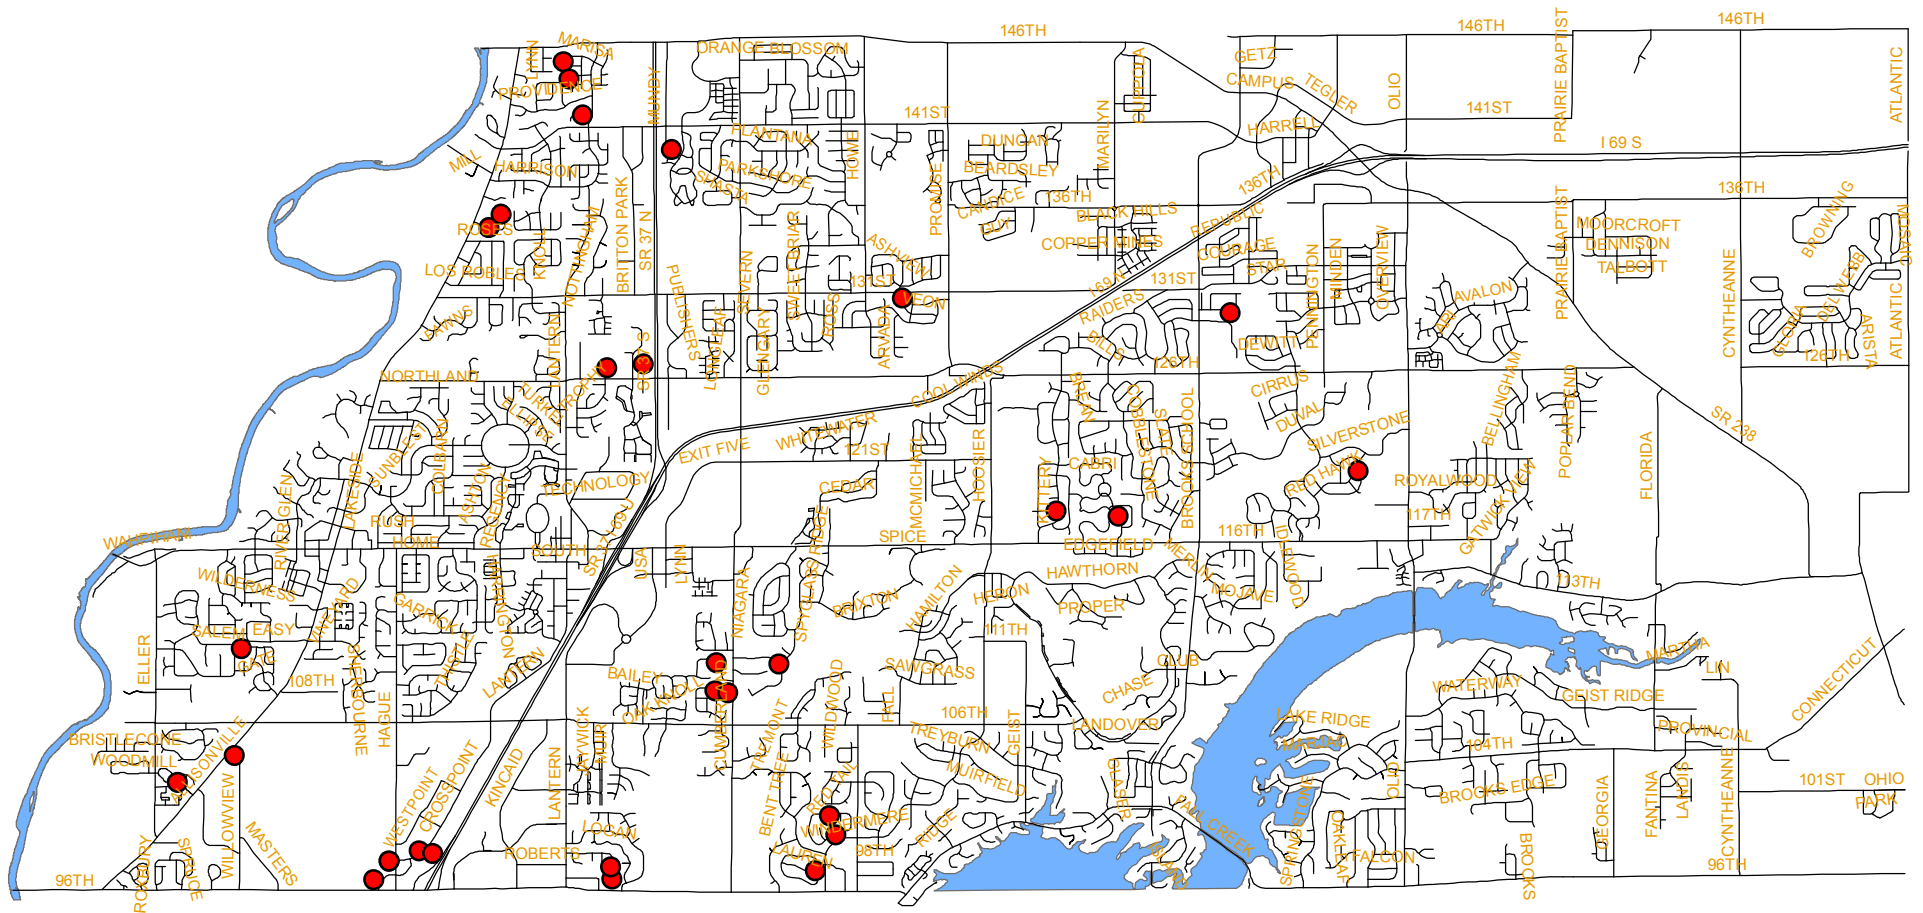

"I know you have warned, and warned us about the issues of smash and grab involving vehicles several times. Last night around 3:30 my neighbor noticed a large group of people walking down our street. They were attempting to find unlocked cars and there were foot prints around several vehicles. A homeowner turned on their lights and someone whistled and a vehicle came from a nearby cul-de-sac. The person started jumping fences and was picked up on 106th Street. Officer Flynn, who visited me today, asked us to call 911 immediately if we even think we hear something. He also mentioned the fact that we have a habit of leaving our garage doors open at night. He does summer bike patrol late nights in the area."

Please review the attached safety tips and forward this information to your crime watch participants. When neighbors look out for each other, we all benefit! Thank you!
