Residents can sign up for *Fishers Alert* to Receive Town News via Email

FISHERS, IN – The Town of Fishers has implemented an email notification system that allows citizens to sign up to receive email alerts notifying them of town happenings including emergencies, news, job openings, and a variety of other topics.

“Fishers residents are technologically savvy and they like to keep informed of town happenings, so providing them news directly to their inbox is ideal,” said Gary A. Huff, Fishers Town Manager. “*Fishers Alert* is a great way to deliver important information quickly and directly to our citizens who have chosen to receive them.”

To sign up, residents can visit the Town of Fishers website at www.Fishers.in.us and enter their email address to create an account. After creating an account, residents can subscribe to receive alerts about a variety of topics including:

- Ritchie Woods Nature Preserve News
- Crime Watch
- Fishers Parks & Recreation News
- Fishers Police Department Media Releases
- Road Notices
- Emergency Notification
- Community Events and Program Notices
- Town News
- Fishers Fire Department News
- Job Openings

When news breaks regarding the subscription topics, subscribers will receive an email directing them to appropriate link on the town website. Subscribers are able to manage their subscriptions at any time, allowing them to sign up for more email alerts or opt out of the program.
